So what makes  
Madpong different?!

Well this does...

## King's Cup

The mad cup A.K.A. King's Cup is specially designed for the game of MadPong.

## MadCards

MadPong comes with MadCards. Each represents a different assignment that will have to be performed by all players.

## Clean Game

Due to the design of the King's Cup, the MadCard can be placed above the beer level. It protects the beer from the dirty ball and any other stuff that may fall into your drink.

## Shot Glass

MadPong doesn't only involve drinking beer but also taking shots.

## Follow the Leader

If the ball falls into your cup, drink the beer inside and perform the assignment. All players will have to follow you. The last one takes the shot as a penalty.
